

Student Interest Response

We would like to extend *an invitation to participate* to students interested in the Future of Memory and Storage. This leading global independent conference and exhibition will be held on August 5-7, 2025 at the Santa Clara Convention Center in Santa Clara, CA.

The conference is a great place for students and faculty members to interact with industry professionals from around the world, as its attendees come from major companies. This conference also provides an excellent opportunity for students to present their work to industry leaders and to showcase their abilities (and meet with) companies looking for interns and full-time employees. You will also have time to meet with a recruiter. We look forward to the media coverage we will have this year to showcase the colleges that attend the conference.

I am interested in participating in these areas:

- **Assisting conference staff** for six hours during the event in exchange for a full-conference registration. Specific times/dates are negotiable (Tuesday – Thursday).
- **Presenting a poster in the Exhibit Hall** (booth space for all posters). Description of poster must be approved by the University Coordinator. As a poster presenter, you will receive a complimentary full-conference registration.

Name:
